

JAKOBI DAVIS

AI Workflow Builder | Educator | Community Speaker | Founder, Champions Voice

Brookhaven, GA | 941-928-1993 | jakobi.davis@championsvoice.org | championsvoice.org | github.com/webdevkobi | @therealchampionsvoice
U.S. work authorized | Open to U.S. relocation

CLAUDE CORPS FIT

Community-rooted AI implementation builder and educator who turns complex systems into plain-language tools people can actually use. Cornell civil and environmental engineering graduate, Anthropic AI Fluency and Claude 101 certified, and founder of Champions Voice. Built Claude/Codex-assisted dashboards, automations, Notion operating systems, lead systems, Shopify workflows, and private apps while teaching students, athletes, founders, and nontechnical audiences how to use technology with judgment.

TARGETED SKILLS

AI implementation: Claude, Codex, ChatGPT Projects, prompt design, human-in-the-loop review, workflow automation, evaluation loops, privacy-aware builds

Build stack: JavaScript, Node.js, React Native/Expo, HTML/CSS, Shopify Liquid, Vercel, Git/GitHub, Notion, ManyChat, APIs, data cleanup

Enablement: public speaking, mixed-audience training, fifth-grade-language explanations, stakeholder discovery, mentoring, coaching, classroom facilitation

Community context: Boys & Girls Club, Big Brothers Big Sisters, youth development, schools, camps, student-athlete coaching, nonprofit exposure

SELECTED AI BUILDS

Champions Voice Content OS | Notion, Claude/ChatGPT, Instagram analytics, weekly evaluation loop

- Built a Notion-based content calendar and feedback system that uses post analytics, audience comments, and weekly human review to generate the next 7-day content plan.
- Grew @therealchampionsvoice by 20K+ followers in two months while reaching thousands of young student-athletes with academic, recruiting, and identity systems.

Private Driveline Training App | Node.js, Vercel, Blob storage, mobile-first web app, source-faithful recommendations

- Converted a read-only Driveline export into a private training app with 402 calendar events, 98 distinct prescription variants, and 2,374 exercise rows.
- Preserved exact sets, reps, rest, load, notes, plan variants, and calendar history; recommendations select existing source plans instead of inventing workouts.

Daily Inbox Brief | HTML/CSS/JavaScript, scheduled desktop automation, Gmail links

- Built a daily dashboard for Champions Voice that classifies Gmail into brand deals, opportunities, and filtered noise with reasons, next actions, and direct thread links.

ManyChat to Notion Lead Capture Funnel | ManyChat, Notion client database, Instagram DM automation

- Connected social media calls-to-action to automated Instagram DMs and email capture, moving followers from rented social platforms into owned audience channels.
- Mapped the Notion client-list schema for name, email, Instagram, source, lead status, latest interaction, and notes; related workflow collected 1,500+ emails in two months.

Champions Voice Shopify Web Ops | Shopify Liquid, GitHub, theme check, accessibility review, sandbox discipline

- Managed a GitHub-backed Shopify theme workflow for championsvoice.org, including UX audits, CTA cleanup, search/cart empty states, accessibility fixes, and daily ops documentation.

EXPERIENCE

Founder and AI Workflow Builder | Champions Voice LLC | 2023 - Present | Atlanta/Brookhaven, GA

- Founded a student-athlete education brand that teaches identity, academic systems, recruiting habits, leadership, and resilience through digital products, workshops, school partnerships, and coaching.
- Translate the study systems used to become a Dean's List Ivy League engineer into digestible academic habits for high school athletes and families.
- Built AI-assisted operating systems for content, email triage, lead capture, website operations, client onboarding, and training-data products.

Substitute Teacher | DeKalb County Schools | 2025 - Present | DeKalb County, GA

- Lead mixed classrooms, adapt instructions quickly, and keep students moving through the work even when context is incomplete or constraints change.

Coach, Speaker, and Mentor | Youth programs, camps, and community organizations | 2018 - Present | Florida, Georgia, Vietnam

- Presented to thousands of young student-athletes in school, camp, and international settings, including Ho Chi Minh City, Vietnam.

EDUCATION AND CERTIFICATIONS

Cornell University | B.S. Civil and Environmental Engineering; minor/focus in renewable energy systems | 2025

- Dean's List engineer; McMullen and Ryan Scholar awards; Cornell OIE graduating engineering speaker.
- Passed Fundamentals of Engineering (FE) exam.
- Anthropic AI Fluency Framework Foundations - certificate available, 2026
- Anthropic Claude 101 - certificate available, 2026

LEADERSHIP AND SERVICE

- Cornell Big Red Baseball: starting center fielder, two-year team captain, MLB Draft League player, and Frontier League/New Jersey Jackals experience.
- College of Engineering peer mentor recognition; team leadership built through feedback, preparation, and calm under high-failure conditions.
- Boys & Girls Club alumni and youth speaker/mentor; won a youth entrepreneurship program, earned seed funding for a first business at 15, and became a Local Entrepreneur of the Year finalist.
- Big Brothers Big Sisters mentor with a little brother; lifelong exposure to nonprofit youth-development environments, schools, camps, and community organizations.
- Public speaking: delivered talks and workshops for thousands of student-athletes, including international programming in Ho Chi Minh City, Vietnam.
